#### **About This Guide**

This user manual will provide you with the information required for running and using this application.

## **About CIMS**

CIMS (Centralized Information Management System)

CIMS is a total scoring and match analysis application for the game of Cricket. CIMS software has been designed to allow the user to enter ball-by-ball information for a cricket match just as you would in a traditional cricket scorebook. CIMS software also provides features of capturing ball by ball information of delivery length on pitch pad and shots played by batsman on wagon wheel. The scorer is prompted throughout the scoring of match in accordance with the natural flow of the game. Importantly, all the rules of the game are auto calculated so; you don't have to know the matches rules for the cricket

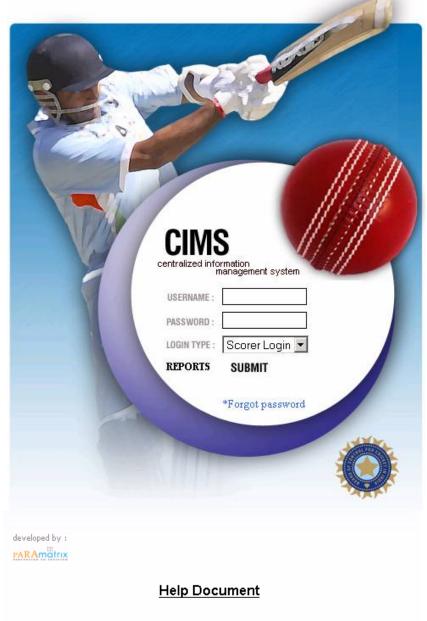

## **CIMS – Scoring Application Usage**

## Starting CIMS application

- 1. Click on Internet Explorer.
- 2. Type URL www.bccicricket.org to get the following Login page
- 3. Enter valid username and password to log in as a scorer.

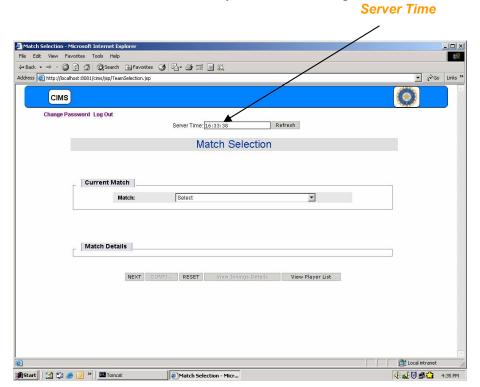

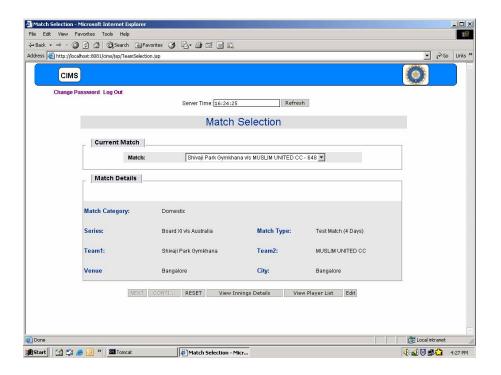

#### Match Selection:

• Select the current match for which you will do scoring.

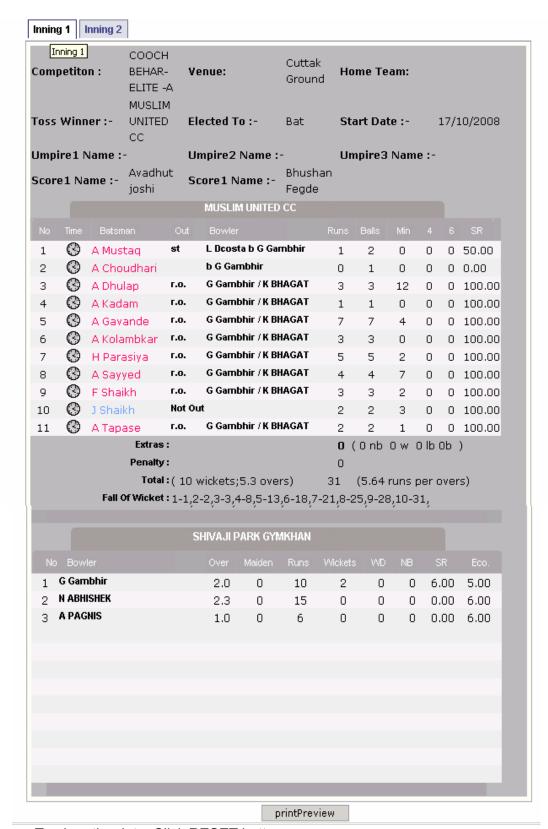

• Selecting required match will present you with the following screen showing the match details with which you can verify the selected match is correct or not.

• To view the match score card, click on **View Innings Details** button. If match is completed or any innings of the match is completed then, It will present you with following screen of the score card/s of selected match.

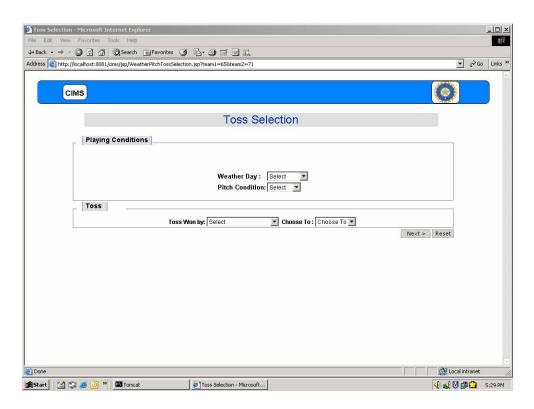

- To clear the data, Click **RESET** button
- If selected match is incomplete then, Click CONTI.... button

- It will take you to the score card where the match scoring was remained incomplete.
- If correct match is selected, Click **NEXT** button. It will present you **Toss Selection** page.

#### Toss Selection:

- Select Weather Day and Pitch Condition.
- Select the team who win the toss in **Toss Won by** and **Toss Winning** team will bat or field first in **Choose To** field.
- To clear the data, Click on **Reset** button
- Click on Next button, and then it will present you following Player Selection form

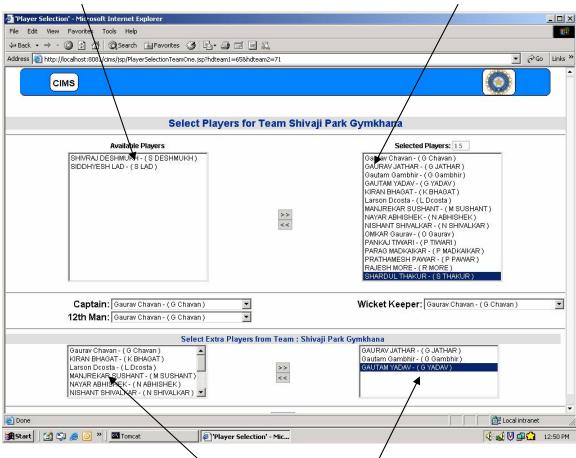

#### Player Selection:

#### Available Players

#### Selected Players

- Extra Players Selection List
- Selected Extra Players
